

**2011**  
**BEST LOOKING GRILLING AREA GUIDELINES**

**Area and Personal Appearance**

This criteria refers to the appearance of the team area and members of the presentation team (Be creative). Judges are not to score on dollars spent on the area or table setting, the “rig”, clothing, etc., but rather the area you are charged with judging is clean and organized. Each member of the presentation team should be clean and be wearing clean, neat clothing.

The area should have all trash picked up, extra supplies organized neatly and trash cans clear from the area or covered. Anyone that is not a part of the presentation team should not be in the judging area. Any other little touches that you feel will add to the appearance of your team or area is acceptable.

This criteria refers to the verbal introduction of and information about the team, area, grill and the entries. Judges are instructed to score you on the introduction of your team, information about your cooker, what you do to prepare the meat before you put it on, how long you cook it and at what temperature, and what you do to the entry while it is cooking.
